ORIGINAL Bren L. Gibbs, Esq. (SBN 251000) Of Counsel to Prenda Law Inc. 21 Locust Avenue, Suite #1 2 Mill Valley, CA 94941 415-325-5900 MAY 1 0 2012 RICHARD W. WIEKING bleibbs@werightpirecv.com OLERK U.S. DISTRICT COURT, NORTHERN DISTRICT OF CALIFORNIA Attorney for Plaintiff 5 6 IN THE UNITED STATES DISTRICT COURT FOR THE 7 8 NORTHERN DISTRICT OF CALIFORNIA 9 AF HOLDINGS LLC. 10 No. 11 Plaintiff, Judge: 12 JOHN DOE 13 COMPLAINT Defendant. 14 DEMAND FOR JURY TRIAL 15 Plaintiff AF Holdings LLC ("Plaintiff"), through its undersigned counsel, hereby files this 16 Complaint requesting damages and injunctive relief, and alleges as follows: 17 18 NATURE OF THE CASE 19 L Plaintiff files this action for copyright infringement under the United States Copyright 20 Act and related contributory infringement and negligence claims under the common law to combat 21 the willful and intentional infringement of its creative works. Unidentified Defendant John Doe 22 ("Defendant"), whose name Plaintiff expects to ascertain during discovery, knowingly and illegally 23 reproduced and distributed Plaintiff's copyrighted Video by acting in concert with others via the 24 BitTorrent file sharing protocol and, upon information and belief, continues to do the same. In using 25 BitTorrent, Defendant's infringment actions furthered the efforts of numerous others in infringing on 26 27 Plaintiff's copyrighted works. The result: exponential viral infringment. Plaintiff seeks a permanent 28

injunction, statutory or actual damages, award of costs and attorney's fees, and other relief to curb 1 2 this behavior. 3 THE PARTIES 4 2. Plaintiff AF Holdings LLC is a limited liability company organized and existing 5 under the laws of the Federation of Saint Kitts and Nevis. Plaintiff is a holder of rights to various 6 copyrighted works, and is the exclusive holder of the relevant rights with respect to the copyrighted 7 creative work at issue in this Complaint. 8 9 3, The copyrighted work at issue in this complaint is one of Plaintiff's adult 10 entertainment videos, "Popular Demand" (the "Video"). 11 Defendant's actual name is unknown to Plaintiff. Instead, Defendant is known to 4. 12 Plaintiff only by an Internet Protocol address ("IP address"), which is a number assigned to devices, 13 such as computers, that are connected to the Internet. In the course of monitoring Internet-based 14 infringement of its copyrighted content, Plaintiff's agents observed unlawful reproduction and 15 distribution occurring over IP address 76.103.173.27 via the BitTorrent file transfer protocol. 16 Plaintiff cannot ascertain Defendant's actual identity without limited expedited discovery. 17 18 JURISDICTION AND VENUE 19 5. This Court has subject matter jurisdiction over Plaintiff's copyright infringement 20 claim under 17 U.S.C. §§ 101, et seq., (the Copyright Act), 28 U.S.C. § 1331 (actions arising under 21 the laws of the United States), and 28 U.S.C. § 1338(a) (actions arising under an Act of Congress 22 relating to copyrights). This Court has supplemental jurisdiction over Plaintiff's contributory 23 infringement and negligence claims under 28 U.S.C. § 1367(a) because they are so related to 24 Plaintiff's copyright infringement claim, which is within this Court's original jurisdiction, that the 25 claims form part of the same case and controversy under Article III of the United States 26 27 Constitution. 28

COMPLAINT

1 6. This Court has personal jurisdiction because, upon information and belief, Defendant 2 either resides in or committed copyright infringement in the State of California. Plaintiff used 3 geolocation technology to trace the IP address of the Defendant to a point of origin within the State 4 of California. Geolocation is a method for ascertaining the likely geographic region associated with a 5 given IP address at a given date and time. Although not a litmus test for personal jurisdiction, the use 6 of geolocation gives Plaintiff good cause for asserting that personal jurisdiction is proper over the 7 Defendant. 8 9 Venue is properly founded in this judicial district pursuant to 28 U.S.C. §§ 1391(b) 7. 10 and 1400(a) because Defendant resides in this District, may be found in this District, or a substantial 11 part of the events giving rise to the claims in this action occurred within this District. 12 13 BACKGROUND 8. BitTorrent is a modern file sharing method ("protocol") used for distributing data via 14 the Internet. 15 16 9. Traditional file transfer protocols involve a central server, which distributes data directly to individual users. This method is prone to collapse when large numbers of users request 17 18 data from the central server, in which case the server can become overburdened and the rate of data 19 transmission can slow considerably or cease altogether. In addition, the reliability of access to the 20 data stored on a server is largely dependent on the server's ability to continue functioning for 21 prolonged periods of time under high resource demands. 22 Standard P2P protocols involve a one-to-one transfer of whole files between a single 10. 23 uploader and single downloader. Although standard P2P protocols solve some of the issues 24 25 associated with traditional file transfer protocols, these protocols still suffer from such issues as 26 scalability. For example, when a popular file is released (e.g. an illegal copy of the latest blockbuster 27 movie) the initial source of the file performs a one-to-one whole file transfer to a third party, who 28 COMPLAINT

then performs similar transfers. The one-to-one whole file transfer method can significantly delay the spread of a file across the world because the initial spread is so limited.

- In contrast, the BitTorrent protocol is a decentralized method of distributing data. Instead of relying on a central server to distribute data directly to individual users, the BitTorrent 5 protocol allows individual users to distribute data among themselves. Further, the BitTorrent protocol involves breaking a single large file into many small pieces, which can be transferred much more quickly than a single large file and, in turn, redistributed much more quickly than a single large file. Moreover, each peer can download missing pieces of the file from multiple sources—often simultaneously—which causes transfers to be fast and reliable. After downloading a piece, a peer automatically becomes a source for the piece. This distribution method contrasts sharply with a oneto-one whole file transfer method.
- In BitTorrent vernacular, individual downloaders/distributors of a particular file are 12. called peers. The group of peers involved in downloading/distributing a particular file is called a swarm. A server which stores a list of peers in a swarm is called a tracker. A computer program that implements the BitTorrent protocol is called a BitTorrent client. Each swarm is unique to a particular file.
- 13. The BitTorrent protocol operates as follows. First, a user locates a small "torrent" file. This file contains information about the files to be shared and about the tracker, the computer that coordinates the file distribution. Second, the user loads the torrent file into a BitTorrent client, which automatically attempts to connect to the tracker listed in the torrent file. Third, the tracker responds with a list of peers and the BitTorrent client connects to those peers to begin downloading data from and distributing data to the other peers in the swarm. When the download is complete, the BitTorrent client continues distributing data to other peers in the swarm until the user manualty disconnects from the swarm or the BitTorrent client otherwise does the same.

- 14. The degree of anonymity provided by the BitTorrent protocol is extremely low. Because the protocol is based on peers connecting to one another, a peer must broadcast identifying information (i.e. an IP address) before it can receive data. Nevertheless, the actual names of peers in a swarm are unknown, as the users are allowed to download and distribute under the cover of their IP addresses.
- 15. The BitTorrent protocol is an extremely popular method for transferring data. The size of swarms for popular files can reach into the tens of thousands of unique peers. A swarm will commonly have peers from many, if not every, state in the United States and several countries around the world. And every peer in the swarm participates in distributing the file to dozens, hundreds, or even thousands of other peers.
- 16. The BitTorrent protocol is also an extremely popular method for unlawfully copying, reproducing, and distributing files in violation of the copyright laws of the United States. A broad range of copyrighted albums, audiovisual files, photographs, software, and other forms of media are available for illegal reproduction and distribution via the BitTorrent protocol.
- BitTorrent's decentralized nature. Because there are no central servers to enjoin from unlawfully distributing copyrighted content, there is no primary target on which to focus anti-piracy efforts. Indeed, the same decentralization that makes the BitTorrent protocol an extremely robust and efficient means of transferring enormous quantities of data also acts to insulate it from anti-piracy measures. This lawsuit is Plaintiff's only practical means of combating BitTorrent-based infringement of the Video.

ALLEGATIONS COMMON TO ALL COUNTS

18. Plaintiff is the exclusive rights holder with respect to BitTorrent-based reproduction and distribution of the Video.

COMPLAIN

this case is identified as 6C10F2DCFF52961B876AA592183103BAC958E989 (hereinafter "Hash Tag."), and common to all of the participants in the swarm.

COUNT I - COPYRIGHT INFRINGEMENT

- 25. Plaintiff hereby incorporates by reference each and every allegation contained in the preceding paragraphs as if fully set forth fully herein.
- 26. Defendant's conduct infringes upon Plaintiff's exclusive rights of reproduction and distribution that are protected under the Copyright Act.
- Defendant knew or had constructive knowledge that his acts constituted copyright infringement of Plaintiff's Video.
- 28. Defendant's conduct was willful within the meaning of the Copyright Act: intentional, and with indifference to the Plaintiff's rights.
- 29. Plaintiff has been damaged by Defendant's conduct, including but not limited to economic and reputation losses. Plaintiff continues to be damaged by such conduct, and has no adequate remedy at law to compensate the Plaintiff for all of the possible damages stemming from the Defendant's conduct.
- 30. Plaintiff hereby reserves the right, pursuant to 17 U.S.C. § 504(c), to elect to recover statutory damages for each infringement, in lieu of seeking recovery of actual damages.
- 31. As Defendant's infringement was intentional and willful, Plaintiff is entitled to an award of statutory damages, exemplary damages, attorneys' fees, and the costs of the suit.

COUNT II - CONTRIBUTORY INFRINGEMENT

- 32. Plaintiff hereby incorporates by reference each and every allegation contained in the preceding paragraphs as if fully set forth fully herein.
- 33. When users in this unique swarm all possess the same infringing work with the same exact hash value, it is because each infringer possesses an exact digital copy, containing the exact

COMPLAINT

bits and pieces unique to that specific file of Plaintiff's original copyrighted work. They only way this happens in a BitTorrent swarm is through the sharing of these bits and pieces of each same unique file, with the same unique hash value, between the users in the swarm. In essence, although hundreds of users may be uploading the copyrighted work, a single user will receive only the exact parts of a singular upload through that exact swarm, not a compilation of available pieces from various uploads.

- Defendant published the Hash Tag to the BitTorrent network.
- 35. Defendant downloaded, uploaded and distributed the Video to other BitTorrent users through use of the hash-specified protocol in the unique swarm.
- 36. As each of the thousands of people who illegally downloaded the movie accessed this illegal publication, they derived portions of their illegal replication of the file from multiple persons, including, but not limited to, Defendant.
- 37. Defendant knew of the infringement, was conscious of his own infringement, and Defendant was fully concsious that his actions resulted in multiple other persons derivatively downloaded the file containing Plaintiff's Video.
- 38. The infringement by the other BitTorrent users could not have occurred without Defendant's participation in uploading Plaintiff's copyrighted works. As such, Defendant's participation in the infringing activities of others is substantial and contributed, for profit, to the infringing activity of thousands of other peers over the Internet across the world.
- 39. Defendant profited from this contributory infringement by way of being granted access to a greater library of other infringing works, some of which belonged to Plaintiff and some of which belonged to other copyright owners.

б

COUNT III - NEGLIGENCE

- 40. Plaintiff hereby incorporates by reference each and every allegation contained in the preceding paragraphs as if fully set forth fully herein.
- 41. Defendant accessed, or controlled access to, the Internet connection used in performing the unauthorized copying and sharing of Plaintiff's Video, proximately causing financial harm to Plaintiff.
- 42. Defendant had a duty to secure his Internet connection. Defendant breached that duty by failing to secure his Internet connection.
- 43. Reasonable Internet users take steps to secure their Internet access accounts preventing the use of such accounts for an illegal purpose. Defendant's failure to secure his Internet access account, thereby allowing for its illegal use, constitutes a breach of the ordinary care that a reasonable Internet account holder would do under like circumstances.
- 44. In the alternative, Defendant secured his connection, but permitted an unknown third party to use his Internet connection to infringe on Plaintiff's Video. Defendant knew, or should have known, that this unidentified individual used Defendant's Internet connection for the aformentioned illegal activities. Defendant declined to monitor the unidentified third-party infringer's use of his computer Internet connection, demonstrating further negligence.
- 45. In the alternative, Defendant knew of, and allowed for, the unidentified third party infringer's use of his Internet connection for illegal purposes and thus was complicit in the unidentified third party's actions.
- 46. Upon information and belief, Defendant's failure to secure his Internet access account directly allowed for the copying and sharing of Plaintiff's Video over the BitTorrent protocol through Defendant's Internet connection, and interfered with Plaintiff's exclusive rights in the copyrighted work.

COMPLAIN

- 47. Upon information and belief, Defendant knew, or should have known of, the unidentified third party's infringing actions, and, despite this, Defendant directly, or indirectly, allowed for the copying and sharing of Plaintiff's Video over the BitTorrent protocol through Defendant's Internet connection, and interfered with Plaintiff's exclusive rights in the copyrighted Video.
- 48. By virtue of his unsecured access. Defendant negligently allowed the use of his Internet access account to perform the above-described copying and sharing of Plaintiff's copyrighted Video.
- 49. Had Defendant taken reasonable care in securing access to this Internet connection, or monitoring the unidentified third-party individual's use of his Internet connection, such infringements as those described above would not have occurred by the use of Defendant's Internet access account.
- 50. Defendant's negligent actions allow others to unlawfully copy and share Plaintiff's copyrighted Video, proximately causing financial harm to Plaintiff and unlawfully interfering with Plaintiff's exclusive rights in the Video.

JURY DEMAND

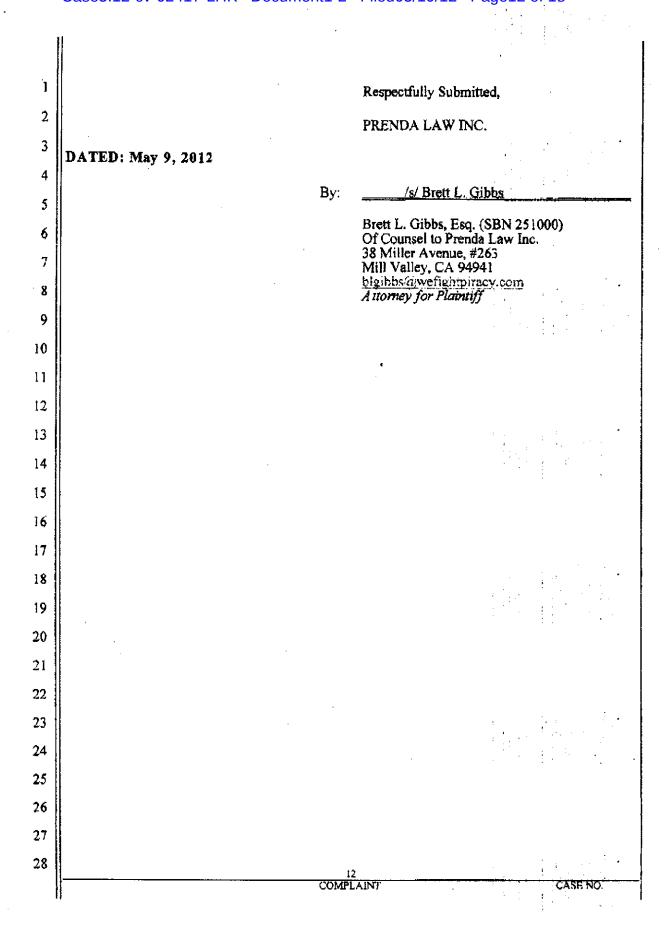

51. Plaintiff hereby demands a jury trial in this case.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff respectfully requests Judgment and relief as follows:

1) Judgment against Defendant that he has: a) willfully infringed Plaintiff's rights in federally registered copyrights pursuant to 17 U.S.C. § 501; and b) otherwise injured the business reputation and business of Plaintiff by Defendant's acts and conduct set forth in this Complaint;

EXHIBIT B

COPYRIGHT ASSIGNMENT AGREEMENT

This Copyright Assignment Agreement is dated effective as of December 20, 2011, by and among Heartbreaker Digital LLC ("Assignor") and AF Holdings, LLC, a Nevis limited liability company ("Assignee").

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

- transfers to Assignee, and its respective successors, licensees, and assigns, all rights, fide and interest worldwide in and to that cestain work titled "Popular Demand" and associated with copyright registration number PA0001754383 (collectively the "Work") and all proprietary rights therein, including, without limitation, all copyrights, trademarks, design patents, trade secret rights, moral rights, and all contract and licensing rights, and all claims and causes of action of respect to any of the foregoing, whether now known or hereafter to become known. In the event Assignor has any right in the Work which cannot be assigned. Assignor agrees to waive enforcement worldwide of such right against Assignee, its distributors, and customers or if necessary, exclusively license such right worldwide to Assignee. These rights may be assigned by Assignee.
- Work was created solely by Assignor, Assignor's full-time employees during the course of their employment, or independent contractors who assigned all right, title and interest in their work to Assignor; (b) Assignor is the owner of all rights, title and interest in the tangible forms of the Work and all intellectual property rights protecting them; (c) the Work and the intellectual property rights protecting them are free and clear of all encumbrances, including, without limitation, security interests, licenses, liens, charges or other restrictions; (d) the use, reproduction, distribution, or modification of the Work does not and will not violate this rights of any third parties in the Work including, but not limited to, trade secrets, publicity, privacy, copyrights, and patents; (e) the Work is not in the public domain; and (f) Assignor has full power and authority to make and enter into this Agreement. Assignor agrees to defend, indemnify, and hold harmless Assignee, its officers, directors and employees for any claims, saits or proceedings alleging breach of these warranties.
- Entire Agreement. This Agreement constitutes the entire agreement between Assignor and Assignee with respect to the subject matter berein and supersedes any prior or contemporaneous agreements, written or oral.
- 4. Modifications. This Agreement may be modified only by a written agreement signed by both Assignor and Assignee.
- Governing Law. This Agreement shall be governed by and enforced in accordance with the State of California and the Ninth Circuit, without giving effect to any conflicts of laws principles.

- 6. <u>Severability</u>. If one or more provisions of this Agreement are held to be illegal or unenforceable under applicable law, such illegal or unenforceable portion(s) shall be limited or excluded from this Agreement to the minimum extent required so that this Agreement shall otherwise remain in full torce and effect and enforceable in accordance with its terms.
- 7. <u>Assignment.</u> Assignee may assign or otherwise transfer this Agreement without consent or notice.
- N. Perfection. Assignors agree at the request and expense of Assignee to execute any documents or perform any actions which Assignee may request to perfect this assignment or otherwise implement this Agreement. Assignor agrees that this assignment may be submitted by Assignee to the United States Copyright Office to reflect the assignment.
- 9. <u>Confidentiality.</u> Neither party shall reveal the terms of this Agreement to any third party unless ordered to do so by a court of competent jurisdiction.
- 10. Jurisdiction. Each party agrees to submit to the exclusive personal jurisdiction and venue of the courts of the Island of Nevis with respect to any disputes arising hereunder.

Agreed and Accepted as of the first date written above.
